HONOR ROLL

SECOND GRADING PERIOD School Year 1971-72

Grade 12

Kevin Bailey
Linda Beatty
June Jackson
Brenda Richardson
Leonard Watkins

Grade 11

Georgia Jerton
Charlotte Edwards
LuAnn Holloway
Tom Scoggins

Grade 10

Eeverly Eungenstock
Vicky Collins
Jeffrey Curtis
Mike Wagoner

Grade 9

Jarrel Buford
Karen Jerton
Charles Link
Jale Staton

Prevocational

John Buchanan
Linda Lucas
Wanda Ward
Carol Jordan
Susan Robertson

Grade 8

David Jackson

Grades 7-12 must have an average of 88 or higher and no failing grades to be on the Honor Roll.

Prevocational students must have no more than one S grade and no U grades; an average of 88 or above; and no grade lower than a B to be on the Honor Roll.

HONOR ROLL

THIRD GRADING PERIOD

School Year 1971-72

Grade 12

June Jackson
Brenda Richardson
Leonard Watkins

Grade 11

Georgia Deaton
Charlotte Edwards
LuAnn Holloway
Doug Huffman
Kathy Johnson
Tom Scoggins

Grade 10

Beverly Eungengstock
Vicky Collins
Jeff Curtis
Ronald Sanders
Mike Wagoner

Grade 9

Darrel Buford
Karen Deaton
Charles Link
Jenny Wheatley
Dale Staton

Junior High 11

David Jackson
Virginia Hadden
Joe Martin
Valerie Evans

Prevocational

John Buchanan
Susan Robertson
Wanda Ward
Linda Haberlin

Grades 7-12 must have an average of 88 or higher and no failing grades to be on the Honor Roll.

Prevocational students must have no more than one S grade and no U grades and average of 88 or above; and no grade lower than a B to be on the Honor Roll.

NEW STAFF

June Jackson--12th Grade

KSE is happy to welcome Mrs. Becky Williams to the staff. Mrs. Williams works in Mrs. Nichols' office as an accountant clerk.

She graduated from Western High School. After graduation, Mrs. Williams was a student at the University of Louisville for a year. She is not only our accountant clerk, but, in private life, is also a wife and mother.

OUR ELEMENTARY DEPARTMENT

Kenny Jennings--Elementary C

Groups 4, 5, and 6 went to see a play called Punch and Judy. It was a very good play. The characters besides Punch and Judy were the dog, the hangman, the dancing horse, the devil, the doctor, the teacher, and the police. It was a very good play, believe me.

ARTS AND CRAFTS

Kathy Stokes--Elementary C

We have fun in arts. We make a lot of things. We make potholders, jumping-jack men, paintings, and drawings. We make

picture frames, plaster-of-paris molds, and jewelry boxes. We also weave, sew, and cut paper. We have made Martians, frogs, fish, and snow men. We even made ghosts, birthday cards, house shoes, baskets, and wigs. I like arts.

WHAT IS BLUE?

William Ward--9th Grade

It is a color. It is the color of the sea, and some people might ask why the sea is blue. I guess the sea is blue for the same reason a tree is green.

Blue is the color of the sky. The flag also has blue on it and the blue of the flag is for the heroes down through history.

DEPARTMENT NEWS

LIBRARY NEWS

Terry Strider--11th Grade

Since the last issue of the Colonel, many things have been going on in our library. I would like to share them with you!

Three of our students, Jeff Curtis, Billy Bullock, and Darrell Euford are constructing three models. Jeff is working on a V8 working engine, which is made of plastic. Billy is working on a visible chassis, which will be connected with the working engine to form one complete model when it is finished. Darrell is making a chuck wagon which will be drawn by a team of mules.

Our radio station, which is sponsored by the library, operates through the language lab. This marks the beginning of many new projects which we hope will lead to work for our students. We are operating without a transmitter, but aside from this, it is run like a regular radio station.

Each week, five of our elementary classes visit the library to hear stories and check out books of their choice.

Since the beginning of the year, we have gotten 100 new braille books and 150 new talking books.

MAGAZINE CORNER

Ronnie Sanders--10th Grade

In past issues, I have talked about the magazine Atlas and the many subjects

it covered. In this issue, I will be discussing two magazines which we receive monthly. They are Popular Mechanics and National Geographic.

Popular Mechanics is a magazine which deals with constructing low-cost projects such as two-man submarines, burglar alarms, and boats. It gives tips on repairing, outdoor work, driving, and choosing the best cars that are on the market. This magazine is published by the Hearst Corporation and is available in braille.

Are you interested in learning about foreign countries and learning more about places here in the United States? There is a magazine that can give answers to your questions. This magazine is called National Geographic and is available on talking book. Some of the topics discussed are travel, trade, industry, and monetary exchange. It is published by the National Geographic Society in ink-print. The braille and talking book editions are published by the American Printing House for the Blind.

TROPICAL FISH

Brett Wilson--9th Grade

Tropical fish are very popular in homes all over the world. I like to watch them in their natural surroundings; how they eat, swim, breed, and how they react to each other.

According to the dictionary, an aquarium is an "artificial pool for the keeping of water plants or animals." The first aquarium was made in 1596 by Samuel Pepys. He kept a diary telling how he and his wife kept their tropical fish alive.

The first public aquarium was opened in 1853. It was built by M. Simon and was located in the London Zoological Gardens..

Home aquariums consist of internal filters, sand, plants, snails, rocks, thermometer, air pumps, lights, heater, and fish. The home tank should be kept very clean. The fish need fresh water and air at all times. The filter is used to keep the water fresh and moving while the air pump keeps fresh air for the fish. If the water is not correct, the fish will die. It is very important to see

that there is not too much acid in the water. The thermometer is necessary for the water temperature should be kept at 80 degrees Fahrenheit at all times. The sand is used to hide waste, while the rocks and plants serve as decorations. An important addition to any home aquarium is a snail, for they clean the glass and the bottom of the tank. The heater keeps the water at the correct temperature in every season. Lights are used so the fish are more readily and clearly seen.

If you have any questions about fish, just ask Mrs. Frey or me, Brett Wilson.

CHORUS NEWS

Kathy Johnson--11th Grade

This year the K&E chorus has been very busy. Our main performances have been for the Monogram wives, the Kentucky Children's home, and our annual Christmas Program here at school.

We anticipate many more performances in the spring. If you like to sing, you would most certainly be welcome to join the chorus.

THE BARBERSHOP GROUP Charles Beisler--10th Grade

Everybody remembers, or has heard of the songs by "The boys in the back room." This year we decided to try to repeat some of these songs, so we formed our own barbershop group.

The group consists of eight boys, two basses, two baritones, two tenors, and two top tenors. The basses are Doug Huffman and Bill Shown; the baritones, Mike Wagoner and Ronnie Sanders; tenors, Tom Scoggins and Harold Turner; top tenors, Terry Strader and me.

"Red Leaves," "You Had a Dream," "K-K-K-Katy," "Blue Heaven," "Tell Me Why," and "Coney Island Baby" are the songs we have learned so far this year.

The barbershop group sang for the Lions Club and the Monogram wives, as well as for the PTA. This group has a lot of fun, and we would like to sing for you sometime.

OUR TRIP TO FRANKFORT

Darrell Buford & Chuck Link--9th Grade

On March 15, 1972 fifteen students and three adults boarded the school bus to go to Frankfort. The group consisted of the Junior High 11 students and the ninth grade civics class.

When we arrived, we saw the floral clock which is located near the Capitol. It was dedicated by the Kentucky Garden Club on May 4, 1961. The face of the clock is 34 feet in diameter and contains 20,000 green plants, most of which are grown in Kentucky. The minute hand weighs 530 pounds and is 34 feet long. The hour hand weighs 420 pounds and is 20½ feet long.

Next we were greeted by Mr. Steve Wilson and Mrs. Lewis Deetrick who were our guides through the Governor's Mansion. This building was begun in 1912 and completed in 1914. In one of the parlors, there was a mirror and what-not shelf which were hand-carved by a German craftsman. Many of the furnishings, including the above mentioned, were owned by the first governor of Kentucky.

The outside of the house is made from Kentucky limestone. The cost of this mansion is \$92,000. It has 25 rooms and a well-trained staff of 28. In the garden, we saw a familiar sight; the cupola from our old school building. It is painted white and has several statuettes under it.

In the Capitol, we saw dolls representing all the first ladies in their inaugural gowns. The Capitol has 500 rooms and is constructed of materials coming as far away as Italy. This building cost \$2,000,000 and was built between 1905 and 1909.

Next we had our pictures taken with Senator Lacey T. Smith, Lieutenant Governor Julian Carroll, and Governor Wendell Ford.

We ate lunch at the Capitol Annex, where we received good food and efficient service. Afterwards, we listened in the State House and Senate for a short while.

Our final activity was a tour through the Lieutenant Governor's mansion. This is the old governor's mansion and was occupied by the governor from 1797 until 1914, when the new mansion was built. In 1956, Governor Chandler purchased it

for the state, and it was renovated. The first lieutenant governor moved into the mansion in 1969.

We enjoyed our trip and would like to return.

THE DISTAFF SIDE
Vicky Collins--10th Grade
Georgia Deaton--11th Grade

Have you been wondering what has been happening with our young ladies around KSB lately? If so, now we will tell you.

On Friday December 10, 1971, all the staff members were invited to the annual open house given by the home economics department. Each class, including the boys' home economics class, made either candy, cookies, or both. Punch was also served. There was a drawing for a door prize and Mr. Evans won it. We were pleased with the tremendous response to the open house and are looking forward to doing it again next year.

Recently, we have completed our foods unit. We worked on breakfasts and lunches preparing and having two luncheons in our classroom. For the first one we had

chili, carrots, celery, crockers, and meringue shells with strawberry sherbet. For the second one we had mashed potatoes, fried chicken, lima beans, jello salad, and angel food cake.

Now most of the classes are working in sewing. Some of us are putting in hems, and sewing on buttons and snaps, while the more advanced students are making shifts, gowns, play clothes, and formals.

Tuesday, February 16, was the day of our annual trip to Hellem's Beauty School. There, each girl had her hair styled to her satisfaction by a student at the school. We appreciate the trip and would like to thank those who made it possible.

O&M DEPARTMENT
Richard McDowell

We at K&B have been quite fortunate in the past two years to have had Dr. Roy Brothers and Roger Huff of APH to help us with O&M on a part-time basis. These men come after their regular days work for an hour each afternoon and on

Saturday mornings. Through their efforts and good work we have been able to reach the younger children with some form of orientation and mobility, and, of course, a greater number of older students in a given time.

Independent movement within one's environment is the key to freedom, and it is our desire within this department that our students be as independent as is possible.

We appreciate the opportunity that we have had to meet on a regular basis with the houseparent staff to discuss O&M with them. In these meetings, we ask the houseparents to bring any apparent problems they observe to us for discussion. We try to bring ideas which might be of some assistance in O&M within their particular area of responsibility.

In the coming year, we look forward to offering more and better service to our students at KSB.

NEWS FROM THE TUNING DEPARTMENT

Bill Shown and
Mike Wagoner--10th Grade

The members of the tuning department here at KSB know that the Louisville Lions Club has moved to a new location. We also know that they do not have a piano. In return for their generous help and cooperation, Mr. Howser got the tuning department to repair a Hamilton studio piano to give to them.

Ronnie Cook, a graduate of our school, is currently working for the Stiffler Piano Company in Louisville. They also have a store in Lexington. Ronnie says that he enjoys his work.

NEWS FROM THE SPECIAL CLASS

Milton Owen--Teacher

On March tenth, a group of pupils attended the Shrine Circus in Louisville and enjoyed learning something about the animals.

The next day, the same group attended a puppet show and enjoyed seeing and

learning about their operation.

Some boys and girls are learning to swim and float in the school pool. Some of the pupils are receiving additional instructions during the week.

Jon Hill of the junior high wrestling team is learning the holds and the rules and is looking forward to the tournament.

Steve Corbett and Shauna Perry performed in an assembly and at present are learning a new song called "Birdling." They are also practicing for the Spring Recital under the direction of Mrs. Bradley.

CAMPUS ACTIVITIES

Wanda Ward--9th Grade

We are proud of our school and our campus. We think they are very beautiful. There are many beautiful trees and shrubs. It has been said that at one time that every tree that was native to Kentucky was represented on our campus.

We want to add to the beauty around us. Last year, our science class planted

two chestnut trees and three Ginkgo trees. This year, we will plant a Kentucky Coffee tree and a golden rain-tree.

We learned an interesting legend concerning the raintree. It is the age-old tale of man's search for the unattainable. Poets have sung of it; the tree of Life in the Garden of Eden, Apollo's tree bearing golden apples in the Garden of Hesperides, the Golden Raintree of the Orient, mysteriously transplanted to the heart of frontier America. It is a tree whose fruit is love, whose flower is self-fulfillment, whose ways are ways of pleasantness and whose paths all lead to peace. Luck, happiness, the realization of dreams, the secret of life itself--all belong to him who finds the raintree.

EVERY LITTER BIT HURTS
Eddie Jones--9th Grade

Help keep your school clean. You will be doing your school and yourself a favor if you pick up trash and encourage others to do the same. If you keep this in mind, our campus can be a beautiful place.

ROMANCE DEPRIVES KSB OF PET CAT
Deborah Preston--11th Grade

Crystal, the cat, has been most enjoyed by the people at KSB in the few months she has been here. But, as they will do, kittens grow up. Crystal proved she was a real charmer, and still is, since people could get no sleep when she was entertaining "gentlemen callers." Due to her popularity, we decided she would be happier if she had a new home. She is residing with Miss Maxey, Merwin's cottage aide, for the time being. We wish her the best of luck and many happy returns.

QUIET PLEASE--WE'RE ON THE AIR
Tom Scoggins--11th Grade

For those of you who have been keeping your ears open lately, you may have noticed a new sound drifting around our campus. If you have, chances are you have heard the vibrations of radio WKCR, our new radio station.

The only difference between our station and other stations in the Louisville area such as WAKY or WKLO is the fact

that we are not on the A.M. band. We are classified in the ever-expanding group of "Closed Circuit Radio Stations" which can be found at numerous boarding schools and public high schools.

A group of students wanted to start a radio station last year. However, because of lack of time, we were not successful. But do you think that stopped us? No indeed! This year, we once again discussed this issue with Mr. Evans. It was just a matter of a few weeks until we signed on.

In the beginning, our broadcast hours were short and confined to Saturday afternoons. Now we have begun to expand and are broadcasting six days a week. In the future, we hope to be on the air on Sundays, also.

Some of you may ask the question, "Why do we need a radio station, anyway?" There are several answers. First, you can now hear some "heavy" music in the afternoons after school. Second, we announce items of public interest. We publicize campus happenings and give free air time to the senior concession stand. So you see, it is not only for entertainment, but to bind KSB together.

Another question may be, "What will I hear on KCR if I do listen?" We try to play music that will please the majority of our listeners. Before we signed on the air, Roger Smith and I made a small survey. This survey showed that most people favored either "Rock" or "Country and Western." This was great! Roger knew practically everything there was to know about country music, and I am knowledgeable in the field of rock. Therefore, we arranged our programs and presented "The Country Express" and "Progression." As most of you know, Roger Smith's show is no longer on the air due to his leaving, and we now play only rock.

I believe there should be more to a radio program than merely playing records. I believe there should be information along with the music, making it a learning experience as well as an entertaining one.

Our studio is located in room 316, in the classroom building. If you are interested in what we are doing and how we are doing it, feel free to send any questions to Tom Scoggins, Program Director.

CAMPUS SOCIALS

Brenda Richardson--12th Grade

There have been four main social events in the past three months. Some of these involved just our school while our neighboring schools were present at others.

On the 4th of December, the Pep Club sponsored a Homecoming Weekend. There was also a four way wrestling meet between Illinois, Indiana, Ohio and Kentucky that weekend. On Friday night there was a pep rally for the schools and a get-together. The wrestling was all day Saturday and between the matches in the afternoon, our homecoming queen, Georgia Deaton, was crowned by Mr. Evans. She was also presented with roses and a necklace. That night there was a dance and Another Evolution entertained us.

To celebrate Christmas, all interested students got together the 11th of December and went Christmas caroling in the neighborhood. Afterwards, refreshments were served at Mr. and Mrs. Evans' house.

There was another four way wrestling meet the 8th of January, this time with

Tennessee, Missouri, Indiana and Kentucky. The Friday night activities included a bonfire and a get-together. On Saturday night there was a dance.

Because the Regional Tournament was the 12th of February, our Valentine dance was the 5th. Another Evolution played for us and the king, queen, prince and princess was crowned. This year Beverly Bungenstock was queen, Harold Turner was king, Jerry Wheatley was prince and Karen Deaton was princess.

Our socials have been very enjoyable and we always look forward to the ones to come.

ROCK-AND-SOUL AT KSB LuAnn Holloway--11th Grade

"Bobby Lanz and the Soul Celtics" initiated our new gym by making it vibrate with rock and soul for two hours. The performance lasted from 7 to 9 P.M., and the music was mostly soul, with a bit of jazz and contemporary sprinkled here and there.

Bobby Lanz, a former student of KSB, played in several bands during his high school years. In November of 1963, he organized "The Soul Celtics." The members of the group are Larry Donoho, lead singer; Bill Games, drummer; Dave Ernest, guitar; Keny Hechtloft, saxophone and flute; Bobby himself, piano, bass, organ, and clarinet. Besides playing four instruments, Bobby is also the arranger for the group.

They are currently recording for Rondo Records, which is a local label. If their newest record, "People Get Ready Cause He's Comin' Back Again" and the flip side, "Didn't I Blow Your Mind" is successful, they plan to sell it to Stayx or Atlantic.

We would like to thank Mr. and Mrs. Horton for sponsoring this concert, and we hope that there will be others like it.

BOY SCOUT NEWS Darrell Buford--9th Grade

Recently, part of Troop 10 hiked the ten mile Road Runner Trail, just out of Louisville.

We plan to go to Otter Creek, March 25, for a one-night camping trip. Then, in April, we plan to hike a longer trail. This will probably be the Ohio River Trail which is about 20 miles long. We also hope to spend a weekend at Trooper Island in May.

Since September, we have had many new members and hope others will join.

SPORTS

NCASB CHEERLEADING Linda Beatty--12th Grade

The 16th annual North Central Association of Schools for the Blind wrestling and cheerleading competition was held at the Indiana School for the Blind, in Indianapolis.

Thursday evening the ten visiting cheerleading squads were divided into three groups. The ISB cheerleaders served as leaders of a "rap session," where we exchanged chants, discussed school spirit, and demonstrated various mounts. This was followed by a dance with music provided by a live band.

There was a pep rally Friday morning in the school gymnasium. Each squad presented two cheers as a means of introducing themselves and boosting their team's spirit. That evening, with the opening sessions of wrestling completed, each queen candidate gave her speech and performed one cheer. The evening activities ended with a film shown in the school auditorium.

The cheerleading competition was held at the Indiana School for the Deaf, Saturday morning. Each squad presented two cheers in stocking feet on the mat. Both queen candidate and group performances were judged by the cheerleading sponsors.

The results were announced Saturday night before the finals. This year there were four trophies awarded instead of the traditional first and second place only. The 4th place trophy was awarded to the Missouri cheerleaders; 3rd place--Ohio; 2nd place--the KENTUCKY cheerleaders; and the number one squad was Michigan. The queen's court was as follows: 2nd runner-up--Michigan; 1st runner-up--a tie between Nebraska and Virginia Madden from Kentucky; and the queen of the tournament was Cheryl

Alspach from Ohio. After the finals, there was a banquet in the school dining room.

In closing, I would like to thank our sponsor, Miss Brod, for her constant interest and support. I would also like to say how very proud I am of our cheerleaders and queen candidate.
CONGRATULATIONS!

NCASB QUEEN CANDIDATE ACTIVITIES Virginia Madden--8th Grade

On January 10, I was elected as KSB's Queen candidate for the 1972 NCASB. This year each cheerleader composed one cheer, which she performed before the Jeffersonville High School cheerleaders, who judged the tryout.

Judging at the NCASB began Thursday night and continued through Saturday morning. We were judged by the cheerleading advisors on poise, friendliness, voice quality, and other related qualities.

Friday night each queen candidate gave a speech introducing herself, and presented one cheer. Each candidate was escorted by either the coach or a member of the wrestling team. I am proud to say my escort was Jerry Wheatley.

The Queen, Cheryl Alspach from Ohio, was crowned Saturday night before the wrestling finals. She was presented with a crown, a necklace, and a dozen red roses. Her court included Vicki Dix of Michigan, 2nd runner-up, and a tie between Debbie Henggler from Nebraska and me for 1st runner-up.

I believe the NCASB was an exciting and memorable event to all those involved.

DISTRICT CHEERLEADING COMPETITION Beverly Bungenstock--10th Grade

Our advisor, Miss Brod, received an invitation for us to participate in another competition.

On Wednesday, March 1, we arrived at Atherton High School, where the competition was held. There were four other

squads from the district parochial schools. Each squad performed a cheer containing a jump and one with a gymnastic stunt.

A ribbon was awarded to the squads who placed first and second. These two squads went to the regional competition on March 11.

Though we did not place, we feel it was a good experience, and we would like to thank everyone who made it possible.

THE GIRLS' SWIMMING TEAM

Karen Deaton--5th Grade

In past years, the students at KOL have been involved in such sports as track and wrestling. This year, with the addition of our Olympic size swimming pool, we now have a girls' swimming team. There are ten girls on the team: Debbie Eroyles, Geneva Chandler, Valerie Evans, Kathy Stokes, Theresa Richner, Wanda Ward, Karen Deaton, Lizzy Williams, Deborah Freeston, and Sheila Chapman. We practice on weekday afternoon, on Tuesday and Thursday nights, and on the weekends.

There are four different events in swimming--the crawl, back stroke, breast

stroke, and the butterfly. Each event is limited to four participants. There are two relay races in each event. Our first meet was held Saturday, March 10. We were in competition with the Indiana and Tennessee schools for the Blind.

Each Wednesday evening, from 7:00 to 9:00, there is a different swimming program. The J. C.'s help the students who do not know how to swim. This is a very beneficial service which I assure our students enjoy and appreciate.

THE WHITE-CANE TOURNEY Jeffrey Curtis 10th Grade

The annual WHITE-CANE TOURNEY was hosted by K. S. E. on December 3, 4, and 5, 1971. The participants were The Indiana, Illinois, Ohio, and Kentucky Schools for the Blind. The tourney is held at one of the schools every year. Until this year the Ohio School was not a participant.

The trophy for this tournament travels around to whatever school wins. This year it went to the Indiana School with 34 points and Illinois School was second with 32½. Illinois was the team that gave up the trophy this year. Our "WILDCATS" were third.

We had places by Jernell Buford 88 lbs., third; Dale Stacy, 98, second; Doug Huffmar 105, second; Brett Wilson, 112, third; Otis Miller, 118, second; Doug Ward, 126, third; Jeffrey Curtis, 132, first; Terry Strader, 138, third; Harold Turner, 140, second; John Buchanan, 155, third.

Look out, Ohio. You host the tournament next year and it is our turn to win!

THE QUADRANGULAR AND FALLS CITY WRESTLING TOURNEYS

Dale Stacy
10th Grade

The first weekend after Christmas vacation the Quadrangular tournament takes place at either the Missouri, Indiana, Tennessee or Kentucky schools for the Blind. This year it was the pleasure of our school to host the tournament. At this time each year we get our only chance to wrestle a School for the Blind that is not in the Conference. This school is Tennessee. Tennessee captured first place honors.

The weekend after this tourney is the Falls City Tournament at NEW ALBANY HIGH SCHOOL, New Albany, Indiana. There are always sixteen teams invited to it. KSB had three boys participate. They were Dale Stacy, Doug Huffman and Jeff Curtis.

Woodford County High School was first and North Hardin second. These two teams finished in the same order in the state tournament.

REGIONAL WRESTLING Jeffrey Curtis--10th Grade

KSB was the host of the CENTRAL JEFFERSON COUNTY REGIONAL WRESTLING TOURNAMENT, February 11 and 12. The site was decided on before Christmas. Two weeks before the tourney people began to get ready. In the shop frames were made by Mr. Johnson and many of the students for the bracket cards that would be used to keep the results of each weight class. Miss Johnson drew the bracket cards. Many students carried chairs, tables, and did other odd jobs.

Ribbons were presented to the first, second, and third place-boys in each weight class, along with the bracket card to the first place boy. The ribbons were blue, red, and white respectively.

KSB qualified one boy for the state--Dale Stacy. Only the first and second place boy in each weight class goes to the state. We did have two boys place in the Region: Dale, second; 98 pounds, and Otis Miller, 126 pounds. The most outstanding wrestler of the Regional was Jerry Schindler, 98, from Trinity.

The first place trophy went to Seneca with 118 points and the qualification of ten boys for the state. Trinity was second with 104 points and they qualified eight boys for State Competition.

Although Dale lost his two matches at the state we are all proud of him.

THE N. C. A. S. B.
Jeffrey Curtis--10th Grade

The NORTH CENTRAL ASSOCIATION OF SCHOOLS for the BLIND WRESTLING TOURNAMENT was co-hosted by the Indiana Schools for the Blind and Deaf. All the wrestling was done at the school for the Deaf because of the better facilities while the rest of the festivities took place at the School for the Blind.

KSB had two boys place in the tournament. They were Jerry Wheatley, 98, fourth, and Otis Miller, 126, second.

This event always occurs the first weekend in January.

Wisconsin took first place honors and Indiana was second. This tournament includes eleven schools.

Next year we will play host for the N. C. A. S. B.

CARDINALS AND COLONELS BASKETBALL

Joe Martin--8th Grade

The University of Louisville Cardinals and the Kentucky Colonels were both looking for new head coaches at the end of last season. Both teams went to Los Angeles to find their men. The Cards found their new coach, Jenny Crum, an assistant coach at UCLA. UCLA is the champion of college basketball and has been for four years. Crum has done an outstanding job with the Cards and has led them to a season in which they have won more than twenty games.

Joe Mullaney, the Colonels new coach, has led his team to a very successful year. Mullaney coached the Los Angeles Lakers of the National Basketball Association last year.

The Cardinals and the Colonels play before large crowds at almost every game because the fans in this area enjoy good basketball. We would like to congratulate coaches Crum and Mullaney, as well

as the players themselves, for doing such a fine job this year.

NEWS FROM THE INDUSTRIES Charla Bain--11th Grade

Jack Perry from the Kentucky Industries for the Blind, is now using the speakers from old Talking Book Machines as external speakers for recorders. This gives them a better sound.

The Industries is loaning Talking Book machines and recorders to any handicapped or Multiple-Handicapped person who would have trouble reading books and magazines.

Along with the Talking Book Machines and recorders some of the following items are available:
Remote Control Unit (the machines can be turned on and off from a remote location, helpful to persons confined in bed);
Speed Control Unit, (Allows reader to increase or decrease the speed of the record); and Headphones, (For individual listening.) These may also assist persons with impaired hearing.

Next year we will play host for the
N. C. A. S. B.

CARDINALS AND COLONELS BASKETBALL

Joe Martin--8th Grade

The University of Louisville Cardinals and the Kentucky Colonels were both looking for new head coaches at the end of last season. Both teams went to Los Angeles to find their men. The Cards found their new coach, Denny Crum, an assistant coach at UCLA. UCLA is the champion of college basketball and has been for four years. Crum has done an outstanding job with the Cards and has led them to a season in which they have won more than twenty games.

Joe Mullaney, the Colonels new coach, has led his team to a very successful year. Mullaney coached the Los Angeles Lakers of the National Basketball Association last year.

The Cardinals and the Colonels play before large crowds at almost every game because the fans in this area enjoy good basketball. We would like to congratulate coaches Crum and Mullaney, as well

as the players themselves, for doing such a fine job this year.

NEWS FROM THE INDUSTRIES

Charla Bain--11th Grade

Jack Perry from the Kentucky Industries for the Blind, is now using the speakers from old Talking Book Machines as external speakers for recorders. This gives them a better sound.

The Industries is loaning Talking Book machines and recorders to any handicapped or Multiple-Handicapped person who would have trouble reading books and magazines.

Along with the Talking Book Machines and recorders some of the following items are available:

Remote Control Unit (the machines can be turned on and off from a remote location, helpful to persons confined in bed); Speed Control Unit, (Allows reader to increase or decrease the speed of the record); and Headphones, (For individual listening.) These may also assist persons with impaired hearing.

PTA NEWS

Jean Flowers--Recording Secretary

Many teachers, parents and children attended the Sunday afternoon meeting, on March 12. Between 60 and 80 people came. Each family brought a "covered dish" and all enjoyed a fine luncheon. Many parents toured the school and had the opportunity to meet their children's teachers. Bob Barnes spoke briefly and answered questions about job opportunities for blind people.

Mrs. Son led a discussion about plans for the upcoming Spring Festival. We are all looking forward to working together and having a good time on May 13 from 10:30 until 7:00 p.m. Two rides will be available this year and should be fun. Anyone who has items to contribute or wishes to volunteer to help on that Saturday should contact Mrs. Son. Chances on the 19" color Zenith TV are now available. Some will be mailed to each parent. Plan now to come and bring the family and friends and neighbors to the Spring Festival.
